## Dr. James Borland for Supervisor

Dr. James Borland is a candidate in the November 8th election for the Spring Hill District seat on Campbell County's Board of Supervisors. Jim has been a professor at Liberty for the past 35 years, teaching Bible and Theology. Some of Jim's ancestors were Quakers and worshipped here on Fort Avenue in 1755 before the county was formed in 1781.

The Spring Hill District comprises Candler's Mountain and the central part of the county along Wards Road. LU's new Health Science building and Medical School would be constructed in this district. Jim's experience for 17 years as chief financial and chief operating officer for the Evangelical Theological Society have prepared him for this position. Jim also served as a deputy sheriff for several years in the 1970s.

As a fiscal and socially conservative Republican, Dr. Borland wants to keep taxes low and promote a healthy blending of agriculture, business, and residential growth. "We do not need taxes on meals, internet sales, and hotel rooms in Campbell County," Jim said. Because the district is heavily Republican with a good concentration of Liberty personnel sprinkled throughout, Jim has a good chance of being elected. The two

precincts of the district both vote on Wards Road. Some of Jim's 250 campaign signs can be seen along the major roads and neighborhoods of the Spring Hill District, including Candler's Mountain Road and Camp Hydaway Road. If elected, Dr. Borland will serve a four-year term, dealing with a County budget of about \$162 million.

## Center for Global Engagement

The Department of Intercultural Studies is in the process of completing and getting final approval for its transition from Intercultural Studies to Global Studies. The new program will provide students headed towards a career in missions a platform or "tent-making" degree as well, like International Business or Community Health.

Dr. Fanning has recently published a yearly devotional on the commands of the New Testament, entitled *Truths to Live By*, and is available through his also recently founded publishing company, [branchespublications.com](http://branchespublications.com).

Liberty University's Center for  
**Global Engagement**

Short-term Light campaign meetings have begun. Throughout specified nights of the week, student are meeting with their teams and leaders learning about the cultures in which they will soon be immersed and strategies involved in building relationships to share the gospel, whether snowboarding, ultimate frisbee, or teaching English as a second language. Please pray for unity among the teams and sufficient financial partnership, as they follow the Lord to the ends of the earth over Christmas, spring, and Summer Break.

The Department will be sponsoring and providing transportation to the ABWE (Association of Baptist for World Evangelism) Student Missions Forum in Harrisburg, PA from December 2-4. Any students interested in getting an inside look at a missions agency and interacting with key leaders while being challenged in missions should register at [www.abwe/training/student-mission-forum](http://www.abwe/training/student-mission-forum) or email [missions@liberty.edu](mailto:missions@liberty.edu) with any questions. The cost is \$30 and includes food, housing and materials.
